

GID INTERNATIONAL GROUP

With its successful 47 year US investment and development track record, GID began focusing on several high-growth emerging markets. GID International, an affiliate of GID Investment Advisers LLC, was established in 2006 with the goal of growing the company's portfolio globally and to generate above average risk adjusted returns by investing in high quality real estate development projects in high growth emerging markets.

In early 2006, GID made an investment in a real estate mortgage/merchant bank in India, Beekman Helix India Partners (BHIP), located in Gurgaon with over 25 real estate professionals

The company focuses on providing real estate financial advisory services and preferred equity financing to developers and landowners in India. To date, BHIP has completed over \$100 million in financing.

GID has also co-invested with BHIP and other US investors to fund Piedmont Development Company that will oversee all development and asset management activities relating to any projects in which BHIP invests.

GID is seeking to make investments in residential oriented real estate projects, new townships and/or operating companies in India. GID is interested in joint venturing with established local developers, who have site control, infrastructure and government approvals; ideally the sites can be developed in multiple phases.

GID welcomes the opportunity to work with experienced development companies and investors in India and seeks to build sustainable joint venture relationships worldwide to further its global expansion strategy.
